Step 3: Carefully read the image requirements!

Consider the following prior to uploading an image:

- Quality must be high
- Background must either be black or white.
- Watermark shouldn't be present.
- Multiple items aren't allowed.
- Avoid taking handheld pictures

Step 4: Select the method of uploading the picture:
- o Directly from your camera.
- o Selecting an image already on your phone

(You may need to give Zeus permissions to access the camera or photos. When you do, Zeus will need to restart before continuing.)

Step 5: Once approved by SDI, the image will go live for all users.
