

# Interactive Images Mobile App Overview

# Interactive Images

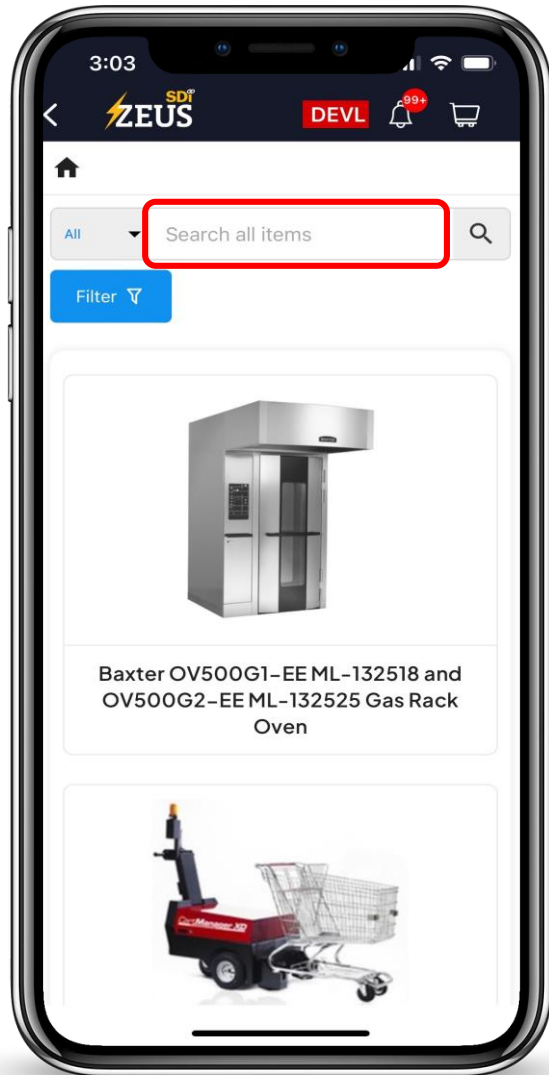

## What is Interactive Images?

Interactive Images allow the user to sort through a series of uploaded Assets, view diagrams, drill into parts and order from the same page.

Access this great new feature by tapping on the new tile Interactive Images.

# Search Options

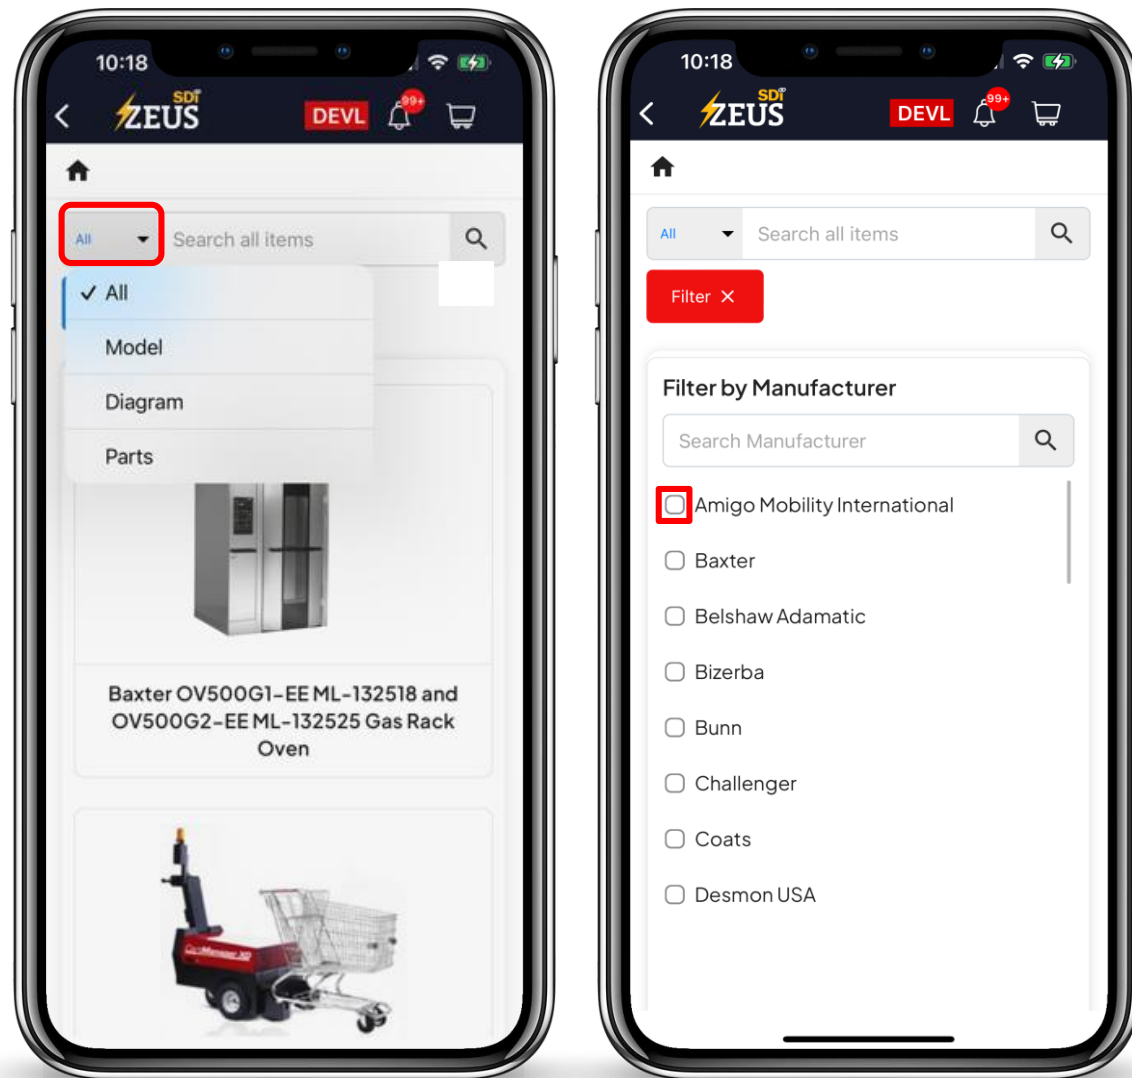

## Search Options

Type in any of the following in the Search all items field:

- Manufacturer Part Number
- Manufacturer
- Model Number
- Description

# Filter Options

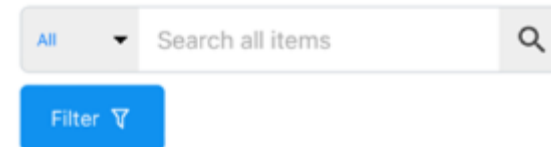

## Filter Options

Filter by Model, Diagram or Parts by tapping on the drop-down arrow next to All.

Tap on the option to select. This will then only search by the option selected or keep All selected to search for all.

Filter by Manufacturer by selecting the blue Filter option below the search bar.

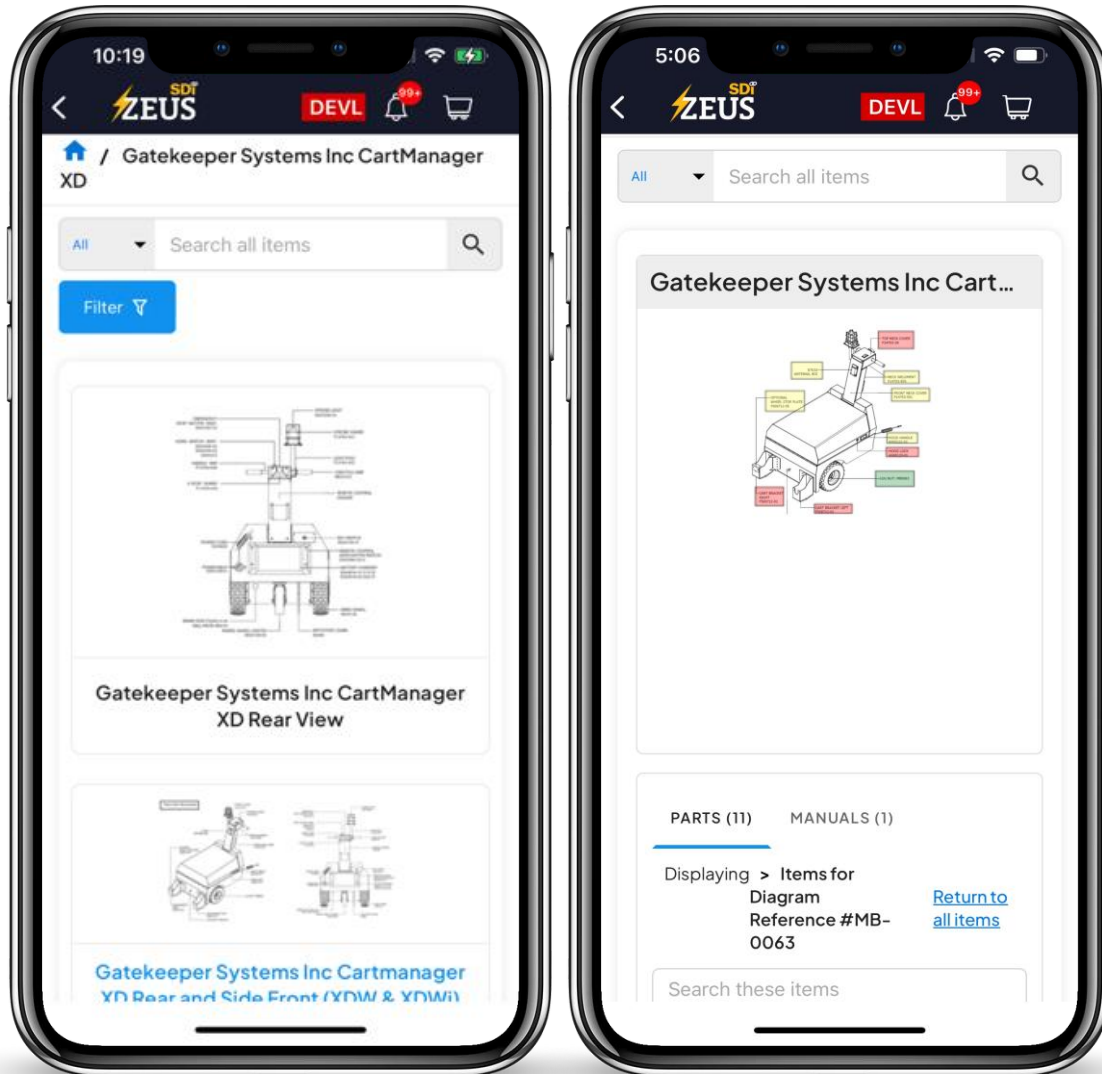

Select a Manufacturer by tapping on the box to the left of the Manufacturer's name.

To clear this filter option, tap on the Filter button again and tap on Clear all groups.

# Search

- Once you have selected the part, the manufacturer or the model you are searching for, your screen will populate with all options available.
- As you search through the different options you will notice most options are sorted by groups within the equipment or views as shown in the example.
- Tap on the option you wish to view, and the screen will pull up an exploded view of that section.
- Tap on any item to select and see item details.
- **See below for color key.**

## Color Key:

-  FRONT NECK COVER P14753-051 Yellow – Catalog Item
-  HOOD LOCK ASS02123-01 Red – Non-Catalog Item
-  LUG NUT: M800K3 Green – Item selected

# Add Items to Cart

## Add an Item to your cart

- Once you have found the item you are searching for, you can add it to your cart from this screen.
  - If the item is a catalog item there will be a **yellow** Buy Now button.
  - If the item is a non-catalog item there will be a **blue** Request to Source button.
  - Another pop-up will appear confirming the information is correct. Tap OK to confirm add to cart.
  - Another pop-up will appear stating the item was successfully added to the cart.
- Once you tap close you will be directed back to the current parts list you are viewing.
  - Add additional items to your cart in this section or tap on the shopping cart and proceed with your normal checkout.
