Take note of the Request ID #. You will have to give this to the location to process your order.

Requestor Approval Tile

The Requestor Approval tile is where you go to approve your orders submitted by a supplier via supplier call-in.

You will see a badge notification on the top right of the tile when there is an order you need to approve.

Open the request, validate the part and quantity is correct.

Note: Your order will not be placed until you approve the request.
